## Poster Presentations

- Student accountability nice to see great strategy.
- Student peer evaluations
- engaging activity posters worked well.
- liked how you went back to criteria quite a bit to remind them of what they were evaluating.
- try calling on those that appear to be not engaging this may serve to refocuss them.
- what are "Nakoda" Rocky Mountains?
- Peer evaluations are great provided class is engaged. Look for "off task" behaviors and perhaps spread an activity like this over 2 days. Your time restraints don't allow this but when using the strategy again plan for multiple days.

This is an assessment of my presentation rubric and evaluation done by my TA. I chose to include this to show my progress and improvement, what went well, what didn't, how I can improve and my progress documented by my TA.
