- Be sure you don't teach through them. Always wait until its fully quiet - all attention on you before proceeding.

↳ Teach kids, not content you. We get wrapped up in the lesson plan and getting through it, but waiting longer before continuing saves you time in the long run.

- * Good work teaching topics which could go off the rails. This needs a lot of detail.

• Be certain to write out more questions, in bold to guide you. Do this and you often don't need the plan to teach it exactly.

Thank you!
