Lesson Plan:

- ↳ good detail - you cover assessment, behaviour, etc in the plans.
- ↳ Good time estimation (for duration of sections).
- ↳ Good key questions, but put them in BOLD print within the lesson itself. In fact, anything of importance you need to put into your plans word for word in bold.
 - also, put your headings in bold too as it helps break up the lesson into chunks and is easier to follow.
- ↳ good job reviewing key concepts of performance as it often needs to be done before every concert.
 - students are attentive (by and large) to you as well and you are not afraid to address things in your lesson behaviourally.
- ↳ In the plan you write "Discuss..." But then put out ~~questions~~ questions under it.
- ↳ you may want to consider putting more questions into point form. It helps you follow it better. Paragraph form is a lot easier to get lost in.
